House of Hydro Canine Hydrotherapy Centre

- House of Hydro attains the standards required for and are governed by the National Association of Registered Canine Hydrotherapists (NARCH) and International Association of Animal Therapist (IAAT).

- Professional membership, training and credentials may be checked by visiting the NARCH website www.narch.org.uk/Home/Index (or IAAT for the Physiotherapist).

- Each year the House of Hydro qualified hydrotherapists commits to a minimum of 25 hours of continued professional development (CPD) as part of the NARCH code of ethics and conduct.

- Please visit our website www.houseofhydro.co.uk for more information on our team, our services and multimodal approach or call us on 07852 239392.

- House of Hydro is insured by Cliverton, Aspen Insurance Ltd.

- House of Hydro complies with GDPR Compliance 2018 and the Data Protection Act 1998.

- House of Hydro abides by the Veterinary Surgeons Act 1966 and Exemptions Order 2015, by never working on any animal without first having veterinary consent.

- House of Hydro is purposely designed in a way to support an animal's proprioception, we use therapeutic handling throughout our centre.

House of Hydro modalities include –

- **Canine Hydrotherapy** carried out in a pool or underwater treadmill whereby the properties of water are used to achieve the required result, by specific swimming techniques relevant for the individual patient gaining ROM and muscle mass, therapeutic showering, aquatic massage and exercises performed on a moveable platform in the hydrotherapy pool or underwater treadmill.

- **Physiotherapy** can include manual based techniques such as massage, mobilisation and stretching. The use of electrotherapies such as Pulse Electro Magnetic Field (PEMF), therapeutic exercises with the additional use of equipment such as blocks, wobble cushions and poles. Home lifestyle and exercise programmes given for the individual patient relevant to their condition and progress.

- **K-Laser**, our Class IV device delivers specific wavelengths and frequencies of laser light to produce a therapeutic effect upon the body, in a non-invasive way to help control pain. It can accelerate tissue regeneration and healing as well as help to reduce painful inflammation, swelling and stiffness.
